We will have a beautiful day going to the best surf spots of the Basque Country. I will present you all the surf spots of the Basque Country. We have spots for every kind of condition and level, high tide, low tide, big or tiny swell. We will drive along the coast in the search for the best spot to surf, depending on your requests, on the tide and weather conditions.

I will take you where it will suit you the best depending on your request and level..

While searching for the perfect wave, and waiting for the best tide, we'll go and stop at the different town, like Saint Jean de Luz, (a fishing harbor combine to a fine sheltered beach where Louis de XIV was married; Guéthary, (ancient whaling and fishing port), Biarritz, Anglet at Chambre d'amour, (chamber of Love) I will tell you about the legend of its name.

For your lunch we'll go wherever you feel like, a sandwich at a local spot, or a fish restaurant viewing the ocean, anywhere you feel like.. gastro, local food.. at the local market, where we can have ham and cheese.. A real fun experience.

I know all the best restaurants all around the surf spots..

Basically it will be a magic day.. you'll live like a local.. meeting the local people.. and experience the spots as a surfer friend.

Extra: you can extend you stay until later evening, depending on the swell ...
